

Chalice Edge Matching Puzzle

Print and carefully cut out the nine squares so they are exactly the same size.

To solve: Arrange all nine puzzle pieces in a large square so that wherever the edges of the puzzle pieces touch they match color, and if there's a chalice design it makes a complete chalice.

Easy solution: Arrange six of the nine puzzle pieces so that wherever the edges of the puzzle pieces touch they match color, and if there's a chalice design it makes a complete chalice. There is more than one solution when solved this way — how many can you figure out?
